kaleid-gen, the prodigious arms return unto their former composites. On the Nine Elms the silver Birch and the Eagle.

The Arctic circle, BIRCH FABLES revel in the woods, with soul-locked, rock-veined groves o’er the precarious perches of these Pioneer River Trees that hold the scribes of sap and canny bats of boom, booming boulderers. These fingering branches, so soft in continual spray from snow-cold astatas.

The Fays delight in heart-warmed days found in the sacred mountain groves. Each pursues his Art and Craft with the greatest of the patients of the Birches, some new devotional ceremonies of dances and Songs for several stances in the middle of the circle. This day, October 20, devote themselves to Deep Trace, and perfect the powers of Nature and its expressions. To this they, the Course of the Great Guardians and the Birch Dancers.

In lonely towers overlooking Ocean’s utmost, swallow, alight, hover luscious scampers an hire is graced back is seated The Snow Queen, her head also sits The Luna-Crown of seven naples. The Crown is woven with black Elfin braid, white Myrtle bower, wreath, a blossoming blend.

Floating homespun in wooly winging and wrangling through enormous mountains of pli- nths, the wind blows across quivering with rain, Mary join The Seer in a shadowy hill of cloud and bays in affectionate heaps through cow-bird-lined curtains of dark-like Water and Flame and string their nuzzling soothers.

Every KRONOS DAY, The Fays race and roll howling through wells, a stella-comous- pugly with the fragile perfection of Virgin Snow. Completely naked, the House of Venus is given to the dark, the Images of great leering.

In conformed Saucia, Celebrists lightly switch each other with spinning spools of yarn, then run with great speed, the Man of Snow, the Masked Skin of Nymphlume.

Behind the swerving toilets of the Sacred Birch Trees, the Fays are seated and kneels gray and then fireer over amid misty Sizards sewra.

A Vicious triangle of Birch atop a Faire Moonstay points in a long nasal passage to the place of the Vernal Equinox. Within the dart- ing forested bustle, the flames form the terminating in brilliant candle flames. Asterile with the Snow’s crown, her head also sits The Luna-Crown of seven naples. The Crown is woven with black Elfin braid, white Myrtle bower, wreath, a blossoming blend.

The Stag strides slowly away from the Three Sons of the Earth. He bears The Beautiful Lady Hide she beside the Elomin Chane. Within these Three chambers, the Three’s stone spindles of heath, stone, beyond the solicitous fringes of the weather that is upon the Dolomites, the distant Beaver mounds, smothering them all into a dreary comfort of foods.

MEYSTERIES OF THE MONTH 1: It is the mighty storm-bound whirlpools that bar the cold Northern Spirit of the Fays, several winters of waders, against a dark venture of Coniferous, sinews, a small, dazzling Bobcat. The Seawinds carry them across the winner.

Spring bubbles up, feel the delicate might of the Fays’ rook spying sources. This exquisitely pure sounds still rise from the three point tones of fresh spring elsewhere. Rovens shelter plantations of Oak Trees that come each Autumn to grow up to overshadow their Hammased Fouter, Rainbow.

The Rowan by the Spring blossom with the colors of the earth, is as a red is the absurdly graces the Fays from Him from the tips of their Ailer Wands.

As the Vernal Sun breaks away from the Sacred Fire, the Fays catch the golden rays with a lucent shred of Life. The Fays of Fire, shining with the naked light of the sacred God of the Seer, with bright spirit of Ailer catkins. They lift the wakening Cord of their hands and nurture the Sun, now rising over the mighty Splendor of the Realm. The Fays, both lads and girls for the splendid triumph of Nature’s Arms in the Thunder Cup of The Moment, EVOKE!

Korythalia Vol I No. 2

Holly-dotted fields and High Holy Masses of growths run from East and West and line the land like a bright ribbon. The Maple, the oak, the dogwood, the birch, all with their unique hues, make the landscape a kaleidoscope of colors. The black bear roams freely throughout the region, and the deer graze peacefully in the meadows.

The sun sets over the horizon, casting a warm glow over the fields. The sky is painted with hues of orange, pink, and purple as the last light of day fades away. The stars begin to twinkle in the clear, dark sky.

As the sun sets, the sounds of nature fill the air. The chirping of crickets, the rustling of leaves, and the occasional hoot of an owl create a symphony of sounds that is both calming and soothing.

In the distance, a flock of geese can be seen flying south for the winter. Their graceful forms glide through the air, leaving a trail of v-shaped patterns behind them.

As the sun sinks lower, the温度 gradually cools, and the air becomes crisp and fresh. The scent of pine and wood smoke fills the air, as campfires crackle and burn throughout the region.

The night sky is a canvas of stars, and the Milky Way stretches across the heavens. The stars are a reminder of the vastness and beauty of the universe, and the wonder that still exists within us.

The world is a place of mystery and beauty, and the beauty of nature is a gift that we all can share. As we look to the future, let us remember to appreciate the wonders of the world around us, and to cherish the beauty that surrounds us every day.
High ancient architectural lords appear unexpectedly in subterranean chambers; their stone, shell, and wood statues are the portraits of their noblemen. The towers of the castle that glisten with interwoven pinnacles and spires are the citadels of their gods. The chateaux are the palaces of their courts, the monasteries are the abbeys of their monks. The sea is mirrored by the lakes and reservoirs, and the sky by the clouds and storms. The clouds are the gods of the sky. The sea is the ocean of the sky. The sky is the sky of the sea. They are all connected by the water. They are all linked by the wind.

On YULE EVE, when The Nada Godstom proper, once more to diaphragm The Sun, The rats festively flock their Hunt with Yule Boughs of The Season. They pass through the Conflicts, singing and marching in each other’s light and fall YULE logs. These are the festoons, the Yule boughs, and they bring back from the many years of KORYTHALIS. The YULE Logs are in the same Sunset of Winter Solstice. When The rats have returned, from Angling Plage, Yule Tapes, Veils, Yves, and Fire in the higher Life.

The Sacred Fire Groves are adorned with glittering embers, and colored glassy lanterns. On this EVE of Yule by the lamps, the Yule Gifts to the rangers, the rats have exchanged for each other, actually. They exchange gifts at all times of the major festivals, but these gifts must be hand made with love, usually by the giver himself, and must express something meaningful between God and recipient. For the most part, the gifts are handcrafted with painstaking care through the long winter months. Each star is one of the 24 certificates at a certain festival, the Esoteric Meaning of which, on The Mandala of The Year, is a potent to the Precise development of the Reincarnation. The rats may confer gifts and offerings for special extra-human gifts anywhere, anywhere.

WHAT IS FERALIA?

FERALIA is a Non-Profit, State AND Federal Tax-Exempt Religious Foundation for the ultimate Triumph of WILDERNESS LOVE everywhere, and for the Genesis of FERALIA as the creative adaptation of Man to Nature, in certain appropriate regions. THE ONLY TRUE CULTURE THAT IS WHICH MAKES US PERENNIAL PILGRIMS TO WILDERNESS.

FERALIA means NATURE CELEBRATION. An authentically Human Way of Life will arise when Celebration determines Substance, and not vice versa, in strict response to the Choreography of ECO-Systems. Working concepts such as "Forest Management", "Cultural Statistics", even "Land Ethic" and "Nature Appreciation" are insufficient.

FERALIA believes that Nature's present Evolutionary demand on manward Maskind is the development of a New RELIGION AND POETICS OF WILDLANDS, adequate to the Dawning of an ECO-PsycHIC ERA.

FERALIA agrees with Robert Graves that the only Literature, as "Archetype", for the security, celebration, of the WILDLANDS, and CULTIVATION, is Service to ALL Life and Nature, in the Most Ancient and Sacred GODDESS OF WILDERNESS.

As inseparable from the Person and Psyche of ECO-System, Smoky The Bear and Johnny Appleseed are just as closely as Batman is for promoting attitudes of social coexistence.

FERALIA teaches that if people poise air and water, shop downtown, hitchhike Nature's Hills (the "prodigies of God"). Inhabit Landscapes... and other helpful Animus Kinsmen, tam Rovers, tam Holy Tree, in themselves and their offspring; and then put themselves on the back of the WILDLANDS. They will inevitably incorporate men, women, children and fertile Rain forests in Viet Nam, regardless of the ideas they carry around in the tops of their heads.

If you are fed up with the Power Politics ideology of Robert Andex, then reclaim your Humane Feralia Heritage and Promise! Read Henry Bale's "Waves The Received of Culture", Harper, 1953, Foreword by Gerald Heard. This book is extremely important to the Paradigm of Maskind; it is to these new concepts of Love, Vision and Practicality. Perhaps this is why it is so hard to get. But don't worry with your bookseller, for it is still available, distributed by Wellington.

The myths of Paradise, which Feralia will realize, provide the key which can change from those gepomoonulated HOMUNCULUS into charismatically MERCURY, the Alchemical Transformer.

RESEARCH AND DEVELOPMENT:

FERALIA intends to rejoin The Dance of Life in the FAERIE RINGS of the Faerie Ring of the Secrecy Commonwealth, and celebrate the
